JOB EXPERIENCE

2023 - Present

Curated By Ideation

Graphic Designer

Designing event materials: This includes creating designs for invitations, event programs, banners, signage, promotional materials, brochures, tickets, and any other visual assets needed for the event.

Creating digital assets: In addition to print materials, event graphic designers may create digital assets such as social media graphics, website banners, email templates, and multimedia presentations. They ensure that the digital designs align with the overall event branding.

2022- Internship

Digital Mechanics Global

Graphic Designer

Collaborated closely with the marketing team to develop visually appealing and effective marketing materials, including print collateral, digital assets, social media graphics, email templates, and website designs.

Conducted market research and competitor analysis to stay informed about design trends and best practices in the marketing industry, integrating new ideas into design concepts.

2021 to 2022 - Freelancer

Toogit Freelance

Graphic Designer

Collaborated directly with clients to understand their design needs, project requirements, and desired outcomes, ensuring clear communication throughout the design process.

Maintained strong client relationships and received positive feedback for professionalism, creativity, and the ability to deliver designs that exceeded expectations.
